What is Heritage Space?
Heritage Space is a platform launched by CHwB Kosovo last year, which is dedicated to young creators to develop their creative ideas with the aim of preserving and promoting cultural heritage. The aim of this platform is:
- To link the creative industry with cultural heritage;
- To strengthen the relation between creators, society and cultural heritage;
- To increase the sensitivity of the Kosovar society for the preservation of cultural heritage;
- To provide new opportunities for the promotion of cultural heritage, as irreplaceable economic, social, cultural and environmental resource;

What ideas will support Space Heritage this year?
Heritage Space supports new ideas to advance cultural heritage as a resource for local development. The ideas may be related but not limited to:
